

Experience the quality,
reliability and comfort of
the **NEW Condens 8300iW**
hydronic heating boiler range

Invented for life

Before everything, there's Bosch

Simply revolutionary solutions hydronic heating solutions. No compromise.

The Bosch Group has been setting trends in hydronic heating for more than 100 years and is a brand you can trust. Quality comes from experience and we strive to make the best even better. Our wall-hung gas residential heating boilers are market leaders in both Germany and the UK (as Worcester Bosch) which is evidence of the high quality standards we achieve.

Every detail of every appliance has been carefully designed, produced and tested by our engineers to fully satisfy the highest standards in quality, performance and convenience. The result is cutting edge technology, efficiency and comfort.

Bosch Quality

Our years of experience in hydronic heating boilers paired with the latest German engineering allows us to design and manufacture the highest quality products without compromise to deliver perfect results.

Reliability Guaranteed

Before our appliances leave our factory, we test every tiny detail and subject them to extensive stress tests. Only when every one of the components meets our high standards of function, quality and reliability 100%, is a Bosch hydronic heating boiler ready to face its most important challenge: being used in your home.

Quality Local Support

Present in Australia for over 100 years, Robert Bosch Australia guarantee product and spare parts piece of mind while our local expert team provide second to none service support. Bosch is the only residential heating boiler manufacturer committed to an own subsidiary in Australia.

Lifetime service. It goes without saying at Bosch

Once your warranty period is over, we are still here to assist you. You can rely on expert care and first rate service through the lifetime of your appliance. From missing instruction manuals to appliance repair, we take care of everything.

Introducing the NEW

Bosch Condens 8300iW Hydronic Heating Boiler

Made in Germany

Engineered and manufactured in Germany for unparalleled quality

Premium Quality

Tested to the equivalent of 15 years usage in Australian conditions

Quality Guaranteed

Bosch boilers are backed by a full 2 years parts and labour, and 5 year heat exchanger warranty, supported by the Bosch Australia customer service network

Hydrogen Ready

The Condens 8300iW boilers are ready to run on a hydrogen blend of up to 20%

Heating and Hot Water

Heating only boilers can be easily converted to also supply domestic hot water for your home

Whisper Quiet

Quietly keeping you cosy in the winter months, and you won't even know it's there

Greater Power & Convenience

25kW & 35kW heating boilers

35kW/40kW heating and domestic hot water boiler

More Efficient

Bosch condensing technology provides ultimate gas efficiency

Pure Comfort

Delivering industry leading performance and temperature stability

Installation flexibility

Superior flexibility

Our new Bosch Condens 8300iW boiler range can be installed indoors, or on an external wall outside your home. The choice is yours.

Internal installations require additional flue components, while external installations require a Bosch outdoor installation kit which includes our premium Australian made outdoor casing and a horizontal flue kit.

The clean, modern outdoor casing is Australian made from COLORBOND® steel to withstand Australian conditions.

Putting you in control

It's the little touches that make all the difference, so we've designed the Condens 8300iW range to operate seamlessly with the Bosch CR50 Controller. By pairing your Bosch boiler with a genuine Bosch controller you can be sure that your boiler will always perform at its optimum efficiency.

The Bosch CR50 Controller has a compact and sleek design, intuitive navigation and backlit screen, and gives you the power to accurately control the temperature of your home for maximum comfort.

Technical specifications
